

PIE Funds Portfolios

PIE Portfolio 10 – Aggressive Growth Mandate

Objective: To seek above average growth over a business cycle. This portfolio will likely experience above average volatility.

Strategy: Approximately 70% of this portfolio is invested in growth assets, with the remaining 30% invested in the PIE Income Fund. The portfolios' equity exposure is diversified globally through investments in the PIE Canadian Equity Fund, PIE US Equity Fund, PIE International Equity Fund, PIE Emerging Markets Equity Fund and the PIE Alternative Strategies Fund. Diversification across geographic regions tends to reduce portfolio variability, because generally, world economic zones are at different points in the business cycle.

Investor: This portfolio is suitable for investors seeking growth, have a long time horizon and are willing to accept above average volatility.

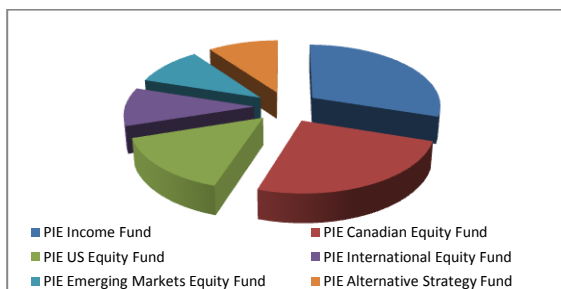

Liquidity: Funds are available for withdrawal and are not subject to deferred sales charges.

Reporting: Investors with minimum accounts of \$25,000 will receive Quarterly Reviews.

Real World Growth Index

Croft Financial Group uses the "Croft RealWorld Indexes" as passive benchmarks. These are three globally diversified index-based portfolios based on the FPX Indexes originally co-developed by Richard Croft.

These indexes are diversified by asset mix and geographic region, and are rebalanced semi-annually. What makes these benchmarks different is that they are investable, and they include a basket of index-based exchange traded funds. The Croft RealWorld Indexes take the process a step further and adjust the FPX Indexes for a 1% management fee, about the average fee paid by Canadian investors for portfolio management.
