

PIE Portfolio 12

All Equity Mandate

- Objective:** To seek above average growth over a business cycle. This portfolio will likely experience above-average volatility.
- Strategy:** The portfolio is invested entirely in equity type assets and would appeal to growth oriented investors. The All Equity mandate offers global diversification, as well as diversification by company size (small, mid and large cap), style, and sector. The All Equity mandate includes the PIE Canadian Equity Fund, PIE US Equity Fund, PIE International Equity Fund, PIE Emerging Markets Equity Fund and the PIE Alternative Strategies Fund. Diversification across geographic regions tends to reduce portfolio variability, because generally, world economic zones are at different points in the business cycle.
- Investor:** This portfolio is suitable for investors who are seeking growth, who have a long time horizon, and who are willing to accept high volatility.
- Liquidity:** Funds are available for withdrawal and are not subject to deferred sales charges.
- Reporting:** Investors with minimum accounts of \$25,000 will receive Quarterly Reviews.

Suitable for investors who have a long-time horizon and are seeking capital growth. If you are focused on capital preservation, a lower risk portfolio may be more suitable.

REAL WORLD CONSERVATIVE INDEX

Croft Financial Group uses the “Croft RealWorld Indexes” as passive benchmarks. These are three globally diversified index-based portfolios based on the FPX Indexes originally co-developed by Richard Croft.

These indexes are diversified by asset mix and geographic region, and are rebalanced semi-annually. What makes these benchmarks different is that they are investable, and they include a basket of index-based exchange traded funds. The Croft RealWorld Indexes take the process a step further and adjust the FPX Indexes for a 1% management fee, about the average fee paid by Canadian investors for portfolio management.
